

To whom it may concern,

I am an avid listener to my local low power, listener supported radio station, Klove, @88.9 FM. I wish to state emphatically that the music and positive message presented by this radio station has vastly changed my life; before I knew that this station existed, I listened exclusively to adult/contemporary stations such as CARZ 107.9 FM. I found Klove in February of 2003, and since then I have decided to listen to Klove for about 95% of my radio listening time. I feel that that I would be LOST without the service that this station provides to me!

Sincerely,

Bryan Ridley
